BUILD at Texas A&M University

BUILD has been receiving attention from Texas A&M University and local news outlets. Some of the stories are highlighted below.

BUILD | Global Health Care Impact by Students

Texas A&M University

Featured on the official TAMU YouTube, this video currently has 4.9M views, making it the 3rd most popular video on their page. "Texas A&M University BUILD is an on-campus, student-led..." Read more...

Honoring Jerry Ebanks: BUILD's Legacy of Service and Hope

Texas A&M University

Featured on the official TAMU YouTube, this video currently has 1.2M views, making it the 10th most popular video on their page. "Jerry Ebanks dedicated his life to honoring fallen Aggies..." Read more...

Texas A&M Veterinary Students Learn Selfless Service By Turning Shipping Containers Into Clinics

Rachel Knight

"The veterinary profession is a vocation of service. While many who become veterinarians naturally have a desire to serve..." Read more...

CONSTRUCTION UPDATES

The Development and Training team, with the help of the Construction team, led the training of all of our new members in the use of our tools. After two days of work, all of BUILD's members were trained and ready for the busy semester to come and BUILD's largest construction year ever building eight TAMCs

BUILD's first task of the spring semester was putting the finishing touches on five TAMCs that would soon be sent to Ukraine, Egypt, Nigeria, Kenya, and Kenedy County. Installing backsplashes, screwing in cabinets, and putting on the last layers of paint were a few of the final steps to prepare the TAMCs for mobilization day.

In 2025 BUILD has expanded the construction cycle to include work in the spring. Construction has begun for two new clinics. The first is a veterinary clinic heading to Raymondville, Texas. This is BUILD's second-ever verterinary clinic, and it is dedicated to Texas A&M's beloved former mascot, Reveille II. The second clinic will be sent to Jeff Davis County, Texas and is dedicated to former Corps of Cadets member and 2008 Texas A&M graduate, Airman 1st Class James "Adam" Lassiter. This clinic will be the only point of medical care in the community.

CONSTRUCTION UPDATES

On February 19th, it was time to begin construction of our two new clinics. Even with freezing temperatures, there was still a great turnout from the BUILD team. During Weeks 1 and 2 of construction, BUILD members began the construction of the wall and ceiling frames and installed subflooring. Also during this time, Britt Rice Electric and Benjamin Franklin Plumbing donated their services and installed the electrical and plumbing for our clinics.

Weeks 3 and 4 were all about preparing the containers for wall installation. The first step was to prepare the wall panels of our clinics. BUILD members routed, sanded, and painted 90 plywood panels. With this step finished, the team installed insulation and blocking to support the cabinets that are soon to be installed.

BUILD also welcomed volunteers from Aggieland's great student body. In just a few weeks, around 400 volunteers joined in on the BUILD project. By the end of Week 6, that total will reach over 800. BUILD volunteers work closely with Command Team members and are essential to the construction process and efficiency of the project.

MOBILIZATION DAY

On February 28th, our Texas Aggie Medical Clinics stood in College Station one last time before embarking on their journey to communities in need. Thanks to the leadership of our Operations Team Lead, Piper Klein, and the dedication of our members, we executed a seamless transition—loading the clinics onto trucks and transporting them to Houston. There, Medical Bridges will equip each clinic with essential medical supplies.

These clinics are now en route to serve communities in Ukraine, Nigeria, Egypt, Kenya, and Kenedy County, Texas, where they will provide critical healthcare support. This milestone is a testament to the hard work, passion, and commitment of everyone involved.

SOCIALS

BUILD socials are more than just a time to unwind—they're an opportunity to strengthen our team, build lasting relationships, and celebrate the impact we're making together. Whether we're sharing laughs over games, collaborating on new ideas, or simply enjoying each other's company, these moments help us stay connected and motivated. A strong community makes our work even more meaningful, reminding us that the best solutions come from teams that support and inspire each other.

BUILD 5K

BUILD is hosting a 5K this spring! If you're interested in running, scan our registration QR code to sign up. Can't make it to the race but still want to support our mission? Scan our donation QR code—every dollar makes a difference! See you at the starting line!

Date: April 12th

Check-in: 1:30 PM

Race starts: 2:30 PM

Registration closes April 9th!
